Mini 210-3040NR
HP is the world's favorite PC.[44]

The world's only companion PC with Beats Audio™!

The new HP Mini 210 rocks with Beats Audio™ delivering music the way the artists intended you to hear it. Take it with you everywhere to do and look your best. The ultra-sleek design borrows the best from the iF award-winning previous-generation Mini 210 with edge-to-edge display glass, plus matching top and bottom covers that deliver 360 degrees of design elegance. And now, provides matching color around the island-style keyboard! The new Mini 210 runs all day on a single charge to keep you productive and web-connected. Enjoy fast online startup, plenty of storage and connection options. The perfect companion!

HP recommends Windows® 7.

HP Mini 210

The new HP Mini 210 gives you high-quality entertainment and high productivity, a combo that rocks when you're on the go. Built-in Beats Audio™ sets a new standard for music listening and cinematic sound in companion PCs. Movies go mobile on the 10.1" (diagonal) HP Brightview Infinity display with the option of adding an external USB DVD player. Included HP QuickWeb software lets you hop online just seconds after starting up to make productive use of otherwise-wasted minutes throughout the day. Plenty of storage means you can tote tons of work files, photos and videos. And an HDMI port lets you easily share your content on your HD TV (cable sold separately). Get all this and more in the new HP Mini 210, your perfect companion!

Rely on HP to bring you a notebook this tough.

The U.S. Air Force relies on HP to support its cyber warfare strategy and as its preferred technology vendor to run critical operations. The Navy, to keep its defense network secure. Understandably so: HP notebooks are engineered to meet select US Department of Defense standards for equipment used in combat to help ensure they survive in extreme conditions for high temperature, humidity, shock and vibration.[50] Our notebooks must survive extreme temperatures while running—a full 6 degrees hotter than the hottest day recorded in Death Valley, CA, to date.[51] Before releasing this HP Mini 210 model for consumer use, we put it through a minimum of 140 tests, consuming at least 95,000 hours—all to help ensure it can outlast the rigors of daily life.

High quality entertainment? It's a natural!

Major studios have long relied on HP technology when making blockbuster movies, from Disney's Fantasia (1940) to DreamWorks Animation's Kung Fu Panda 2 (2011). No wonder your HP Mini 210 notebook delivers outstanding entertainment value: it's in our DNA..

- Hear what you've been missing with Beats Audio™, available exclusively from HP. In collaboration with Dr. Dre, Will.i.am and Interscope Records founder Jimmy Iovine, HP audio engineers now deliver the best audio experience available on a PC today. HP notebooks with Beats Audio™ do things differently: Eliminate electronic background noise; go from whisper quiet to blasting loud without flattening out the sound; add powerful amplifiers for full-bodied sound – and a bass boost button to pump up volume even more. Beats Audio™ lets you hear – and feel – all the music, just as the artist intended.
- Vivid color sweeps across full-screen HD[8] content with the brilliant HP BrightView display. Dive in!
- Sometimes bigger is better. The HDMI port on your Mini 210 notebook connects to your HD-TV[43] —so everyone can watch together!
